Symposium on STEM education held

STAFF REPORTER

GUWAHATI, Dec 28: The West Guwahati College of Education in association with the IQAC unit of the college and in collaboration with the Council for Educational Administration and Management (CEAM) organized a day-long virtual international symposium on the theme - 'STEM education' here

recently.

The inauguration of the event was moderated by Dr VM Sasikumar, president, CEAM.

The keynote address was delivered by Dr Gitanjali Choudhury, Principal of the college.

According to a press release, during the symposium academicians, researchers and professionals from

different parts of the nation and Bangladesh spoke on various sub-themes such as STEM education and NEP 2020, STEM education and psychology of the students, integration of STEM in pedagogy, challenges of STEM education, and uses of technology in STEM education.

The event concluded with an interactive session.

International Symposium on STEM Education on 18th December, 2023
